1. The following is an examiner's statement of reasons for allowance: the claims are allowable because the prior art of record fails to disclose or teach the recited air conditioning control section for disconnecting the first compressor from the engine during deceleration of the vehicle by disengaging the clutch and making the second compressor be used solely for air conditioning.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in claim 1, line 12, delete "air".

3. The above change in claim 1 is being made to correct an obvious error in the recitation of the second compressor.

4. The drawings filed on January 28, 2005 are acceptable.
